Moreno D'Incà

PhD Student @ University of Trento

Research topics: Multimodal Large Language Models, Generative AI, AI Safety & Fairness

EXPERIENCE

JUNE 2025 - DEC 2025
Applied Scientist Intern · Amazon
📍Los Angeles - California (USA) · On-Site · Full-time
- Supervisors: Dr. Alessandro Moschitti
- Result: **Designed** and **trained** novel LLM architectures for local search.
- Topics/Team: Large-Language-Models, Local Search / **Amazon AGI (Alexa)**

NOV 2022 - MAR 2025
PhD Collaboration · PicsArt AI Research (PAIR)
📍Remote · Trento (Italy)
- Supervisors: Prof. Humphrey Shi, Prof. Zhangyang (Atlas) Wang
- Topics: Deep-Learning, Text-to-Image Generation, Fairness, Safety

MAY 2022 - SEP 2022
Visiting Research Student · Queen Mary University of London (QMUL)
📍 London (UK) · On-Site · Full-time
- Supervisors: Prof. Ioannis Patras, Dr. Christos Tzelepis
- Topics: Computer Vision, Generative Adversarial Networks, Image Editing

APR 2020 - JAN 2021
Applied Scientist Intern · Vui, Inc
📍Trento (Italy)
- Supervisor: Dr. Giuseppe Di Fabbrizio
- Topics: Machine Learning, Neural Information Retrieval

SELECTED PUBLICATIONS

IEEE/CVF Conference on Computer Vision and Pattern Recognition 2024 (CVPR) • ***Highlight Paper (Top 11.9%)***
OpenBias: Open-set Bias Detection in Text-to-Image Generative Models
***M. D'Incà**, E. Peruzzo, M. Mancini, D. Xu, V. Goel, X. Xu, Z. Wang, H. Shi, N. Sebe*
- [abstract], [pdf]

Neural Information Processing Systems 2026 (NeurIPS)
Harnessing Textual Refusal Directions for Multimodal Safety
***M. D'Incà**, N. Sebe, M. Mancini*
- [abstract], [pdf]

IEEE/CVF Conference on Computer Vision and Pattern Recognition 2025 (CVPR)
Classifier-to-Bias: Toward Unsupervised Automatic Bias Detection for Visual Classifiers
Q. Guimard, ***M. D'Incà***, M. Mancini, E. Ricci
- [abstract], [pdf]

Transaction on Pattern Analysis and Machine Intelligence 2025 (TPAMI)
GradBias: Unveiling Word Influence on Bias in Text-to-Image Generative Models
***M. D'Incà,** E. Peruzzo, M. Mancini, X. Xu, H. Shi, N. Sebe*
- [abstract], [pdf]

IEEE/CVF Winter Conference on Applications of Computer Vision 2024 (WACV)
Improving Fairness using Vision-Language Driven Image Augmentation
***M. D'Incà**, C. Tzelepis, I. Patras, N. Sebe*
- [abstract], [pdf]

IEEE/CVF Winter Conference on Applications of Computer Vision 2026 (WACV)
Safe Vision-Language Models via Unsafe Weight Manipulation
***M. D'Incà**, E. Peruzzo, X. Xu, H. Shi, N. Sebe, M. Mancini*
- [abstract], [pdf]

Empirical Methods in Natural Language Processing 2026 (EMNLP)
ContextBias: Controlled Evaluation of Bias Persistence Under Context Shift in Text-to-Image Models
S. Kolli, S. Emami, **M. D'Incà**, P. Nejadi, N. Sebe, M. Mancini, J. Diesner
- [abstract], [pdf]

EDUCATION

NOV 2022 - *Current* (expected graduation 2026)
PhD Student in Computer Science
📍University of Trento (Italy)
- Full PhD Scholarship funded by UniTN and PicsArt AI Research (PAIR)
- Supervisors: Prof. Nicu Sebe, Prof. Humphrey Shi, Prof. Zhangyang (Atlas) Wang
- Topics: Deep Learning, Text-to-Image Generation, Vision-Language Models, Fairness, Safety

SEP 2020 - OCT 2022
MSc in Artificial Intelligence
📍University of Trento (Italy)
- Topics: Computer Vision, Deep Learning
- Thesis title: "*Vision-Language Driven Image Augmentation*"
- Supervisors: Prof. Ioannis Patras and Prof. Nicu Sebe
- Grade: 110/110 cum laude (GPA: 4.0)

SEP 2017 - SEP 2020
BSc in Computer Science
📍University of Trento (Italy)
- Topics: Computer Science, Algorithms, Databases, Networks
- Thesis title: "*Dialog Systems: methodologies to improve FAQ data*"
- Supervisor: Prof. Riccardi Giuseppe
- Grade: 106/110 (GPA: 3.5)

Objective

Seeking research internships and research/ applied scientist roles in multimodal AI, generative models, and AI safety.

Research Interests

Multimodal LLMs
Generative AI
Fairness · Safety

Languages

Italian (native)
English (proficient)

Contact Information

morenodinca@gmail.com
moreno.dinca@unitn.it

Academic Service

ECCV 2024 · Reviewer
ECCV 2024 · Volunteer
CVPR 2025 · Reviewer
ICCV 2025 · Reviewer
NeurIPS 2026 · Reviewer
TPAMI · Reviewer

Awards

AI4Media Junior Fellows Exchange Program Scholarship • Visiting Research Student • Queen Mary University of London (UK) • 2022

International Computer Vision Summer School 2023 (Scicli, Italy) • Acceptance Rate 28%

Outstanding reviewer:
- CVPR 2025

RELEVANT SKILLS

Research Interests
- Safety interventions for multimodal large language models
- Open-set bias detection in text-to-image models
- Word-level attribution of generative bias
- Fairness evaluation in multimodal systems

Technical Skills
- Languages: Python, C++, Java, SQL
- Frameworks & Libraries: PyTorch, Hugging Face Transformers, Diffusers, NumPy, Scikit-learn
- Infrastructure: SLURM, Linux, HPC clusters, Docker, Singularity

EUROPEAN PROJECTS

MAY 2023 - *Current*
AI4Trust • Trusted information from around the world
- Topics: Video Content Analyses, Deep Learning, Anomaly Detection
- [Web Page]

NOV 2021 - DEC 2023
SPRING • Socially Pertinent Robots in Gerontological Healthcare
- Topics: Robotics, Emotion Detection, Deep Learning
- [Web Page]

ACADEMIC ACTIVITIES

Invited Talks
- Computer Vision Trento Symposium • *Presentation Speaker* • 2024
